

The Department of Horticulture at Oregon State University

PERMACULTURE Theory and Design HORT 299

Although rooted in horticulture and agriculture, Permaculture Design is interdisciplinary, touching on a wide range of subjects including regional planning, ecology, animal husbandry, appropriate technology, architecture, and international development.

Summer Term 2009

Credits: 4

CRN: 73903

Dates: Aug 17 – Sept 4

Day/Time: Mon – Fri / 9 – 4pm

Location:

Oak Creek Center for Urban Horticulture

Register @ <http://infosu.oregonstate.edu>

Permaculture Design is a method of landscape planning that can be applied at scales from the home garden to the broad acre farm. It is an ethically based whole-systems design approach that uses concepts, principles, and methods derived from ecosystems, indigenous peoples, and other time-tested systems to create sustainable human settlements and institutions.

- This three week intensive class covers the internationally recognized Permaculture Designer Certification curriculum and earns participating students their Permaculture Certification
- Enjoy the teachings of instructor Andrew Millison, along with special guest Jude Hobbs and several others with a combined 30+ years of permaculture experience to share, www.cascadiapermaculture.com
